ISSUE NUMBER 1.
JAN: 2002.

HYDROSTAR PUMP

The Waterco Limited Hydrostar pump has been hydraulically designed for maximum flow characteristics.

Waterco limited has incorporated state of the art engineering plastics and motor design to provide a quality high performance pump that caters for all types of swimming pool applications, especially commercial swimming pools.

Its uses also include ancillary systems such as water features, swimjets, in floor cleaning systems and aqua culture purposes.

The Hydrostar pump comes with a one piece body, a clear hair and lint pot lid with quarter turn lock down lid assembly. The pump also has a massive lockable strainer basket which is ideal for any areas which are subject to large quantities of debris.

The Hydrostar pump comes with drain plug to ensure complete pump drainage.

CONSTRUCTION

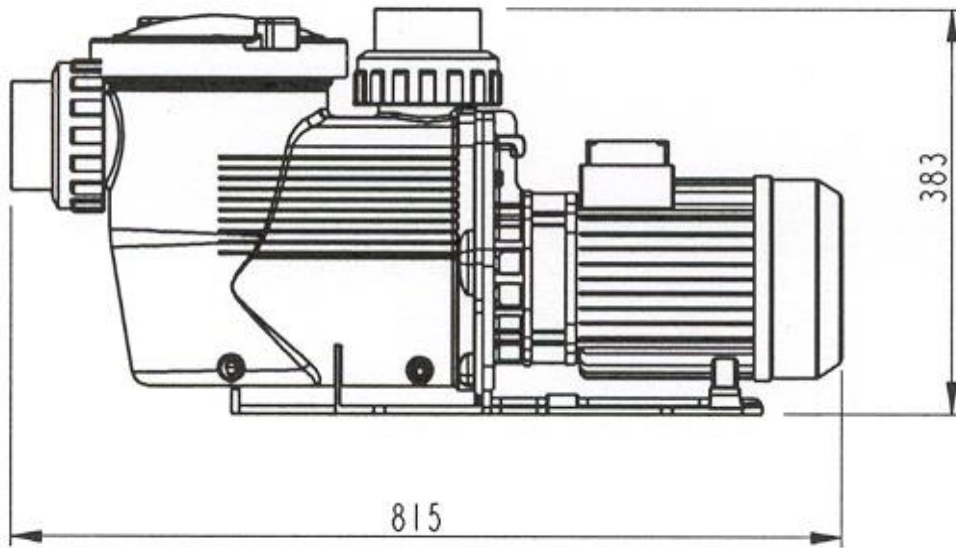

The Hydrostar pump has been constructed with high quality engineering plastics, GF/ABS, GF/PP. The impeller and diffuser are constructed with glass filled Noryl.

The O- rings are leak proof and are re-usable; the mechanical seal is of high grade carbon-graphite with stainless steel spring assembly.

The mechanical seal assembly is suitable for use with chlorine, bromine, ozone, Baquacil, iodine and mild salt water applications.

The hair and lint pot lid is constructed using poly-carbonate materials.

DIMENSIONS

MOTORS

The Hydrostar pump comes with both **single** and **three** phase motors from 2.0hp to 3.5hp and three phase only for the 4.0hp, 5.0hp, 6.0hp and 7.0hp.

The motor used is a European made motor from E.M.G. Italy.

The motors are totally enclosed and are fan cooled. **The motors come with an IP55 protection rating**, which is jet and dust proof and has built in thermal overload protection for **(single phase units only)**. This protection applies for motor only.

Hydrostar pump protection is IPX5.

PUMP MODEL	KW	AMPS	PHASE	HP	VOLTS	CYCLE Hz	MOTOR IP	PUMP RATING
HYDROSTAR 200	1.49	2.50	1	2.00	220-240	50Hz	55	IPX5
HYDROSTAR 250	1.86	3.27	1	2.50	220-240	50Hz	55	IPX5
HYDROSTAR 300	2.24	10.30	1	3.00	220-240	50Hz	55	IPX5
HYDROSTAR 350	2.61	12.00	1	3.50	220-240	50Hz	55	IPX5
HYDROSTAR 200 3PH	0.50	2.50	3	2.00	380-415	50Hz	55	IPX5
HYDROSTAR 250 3PH	0.62	3.80	3	2.50	380-415	50Hz	55	IPX5
HYDROSTAR 300 3PH	0.75	4.12	3	3.00	380-415	50Hz	55	IPX5
HYDROSTAR 350 3PH	0.87	4.41	3	3.50	380-415	50Hz	55	IPX5
HYDROSTAR 400 3PH	0.99	5.78	3	4.00	380-415	50Hz	55	IPX5
HYDROSTAR 500 3PH	1.24	6.00	3	5.00	380-415	50Hz	55	IPX5
HYDROSTAR 600 3PH	1.49	7.20	3	6.00	380-415	50Hz	55	IPX5
HYDROSTAR 700 3PH	1.74	8.30	3	7.00	380-415	50Hz	55	IPX5

Note: 3 phase motors kilowatts and amps in table are shown per phase.

MODELS

The Hydrostar pump is available in single and three phase models from 2.00hp to 3.50hp. The pump body thread is 65mm on the inlet and outlet and 65mm inlet / outlet unions are supplied.

The 4hp to 7hp model is available in three phase only. The pump body threads are 80mm on the inlet / outlet and 80mm unions are supplied.

CONNECTION & TESTING

The Hydrostar pump comes with a two meter electrical cable supplied ex factory for all **single phase units only**.

Three phase units are not supplied with cable.

When no cord is supplied or if the cord is damaged any new replacement cord shall not be lighter than:

- a) Heavy polychloroprene sheathed flexible cords (designated **245 IEC 66** or **H07RN-F** for models with more than 1kw power input.
- b) Ordinary polychloroprene sheathed flexible cords (designated **245 IEC 57** or **H05RN-F**) for models with less than 1kw power input.

The cord should be supplied and fitted with an o-ring (circular clip).

This cord is available from the manufacturer or any of its authorized distributors only.

Electrical cords must be fitted by licensed electricians only.

SMALLEST CROSS SECTION OF CONDUCTOR

NOMINAL (a) CURRENT	NOMINAL CROSS SECTION mm ²
< 0.2	Tinsel cord1)
>0.20 and < 3	0.5a)
> 3 and < 6	0.75
> 6 and < 10	1.00

All Hydrostar pumps are 100% factory wet tested.

PACKAGING

The Hydrostar pump is packaged in a closely fitted cardboard carton. Added protection is ensured by the use of instapak foam in all cartons.

ACCESSORIES

1. Mac type barrel unions. Quantity (2).
2. Owners manual.
3. Warranty terms and conditions.

APPROVALS

The Hydrostar pump is approved to the following standards.

1. Australian standard **AS3136 & AS3350** (ref IEC 335).
2. **EN 60335-2-41** tested by **TUV Rheinland Product Safety**

WARRANTY

The Hydrostar pump comes with a comprehensive **2** year warranty from date of installation. Full warranty terms and conditions are supplied with each unit when sold.

PUMP PERFORMANCE
